NFPA 1917/CAAS/ KKK-1822F Compliance	Note: Braun Northwest can build ambulances which are partially or totally compliant with the customer's choice of the three following standards: NFPA 1917, CAAS, or KKK-1822F. The upgrade cost for this compliance would be based upon A) which ambulance is chosen as the starting point B) the total cost of published/unpublished options required to make the ambulance compliant, and C) additional testing costs related to the standards. Because this combination of contributing elements varies with each build, a definitive price can not be set without knowing beforehand which vehicle the customer desires, which standard they want to be compliant with, and
